Are you a college student in good standing who is planning to apply to medical school and pursue a career in medicine?

FIFTH ANNUAL PREMEDICAL SUMMER WORK EXPERIENCE
Friday, June 3, 2011, through Friday, July 1, 2011

Summit Health is pleased to provide a work experience during the summer for premedical students currently enrolled in an accredited college or university. This four-week program will run in the summer. There are limited positions for students with each selected student to receive a stipend of $1,500 from the Chambersburg Hospital Medical Staff or Waynesboro Hospital Medical Staff upon completion of the program.

The purpose of the program is to provide an opportunity for premedical students to work in a hospital environment in order to gain a better understanding of the nature of health care. This experience may help to clarify their interest in a career in medicine. For those who ultimately apply to medical school, this work experience may be helpful in that it shows greater interest and familiarity with medicine than applicants without such experience.

A variety of work opportunities is available. These might include shadowing opportunities, as available, with the:

1. Cardiovascular Services.
2. Critical Care.
3. Education.
4. Emergency Department.
5. Food and Nutrition.
6. Health Information Management.
8. Infusion Services.
9. Laboratory.
10. Oncology.
11. Patient Relations.
13. Pharmacy.
15. Social Services.

The director of the program, with the assistance of the Education Departments, will make assignments to the work areas.

Priority will be given to applicants from Franklin and Fulton counties, as well as to those closest to completing their undergraduate program.

If you are interested in applying for this program, Medical Staff Services must receive the attached application and supporting materials no later than Friday, February 25, 2011, at 4:00 p.m.
