NSF Funding Opportunities for the Week of July 8 2013

**SBE Doctoral Dissertation Research Improvement Grants (SBE DDRIG)**

Full Proposal Deadline Date: August 1, 2013  
Science, Technology, and Society  
Program Guidelines: NSF 11-547

The National Science Foundation’s Division of Behavioral and Cognitive Sciences (BCS), Division of Social and Economic Sciences (SES), National Center for Science and Engineering Statistics (NCSES), and the SBE Office of Multidisciplinary Activities (SMA) award grants to doctoral students to improve the quality of dissertation research. These grants provide funds for items not normally available through the student’s university. Additionally, these grants allow doctoral students to undertake ...

**Science, Technology, and Society (STS)**

Full Proposal Deadline Date: August 1, 2013  
Program Guidelines: NSF 12-509

STS considers proposals for scientific research into the interface between science (including engineering) or technology, and society. STS researchers use diverse methods including social science, historical, and philosophical methods. Successful proposals will be transferrable (i.e., generate results that provide insights for other scientific contexts that are suitably similar). They will produce outcomes that address pertinent problems and issues at the interface of science, technology and ...

**Long Term Research in Environmental Biology (LTREB)**

Full Proposal Deadline Date: August 1, 2013  
Program Guidelines: NSF 12-501

Through the LTREB program, the Division of Environmental Biology (DEB) and the Division of Integrative Organismal Systems (IOS) encourage the submission of
proposals that generate extended time series of biological and environmental data to address ecological and evolutionary processes and resolve important issues in organismal and environmental biology. Researchers must have collected at least six years of previous data to qualify for funding, and these data must motivate the ... **Opportunities for Promoting Understanding through Synthesis (OPUS)**

Full Proposal Deadline Date: August 1, 2013
Program Guidelines: NSF 12-506

All four clusters within the Division of Environmental Biology (Population and Community Ecology, Ecosystem Science, Evolutionary Processes and Systematic Biology and Biodiversity Inventories) encourage the submission of proposals aimed at synthesizing a body of related research projects conducted by a single individual or a group of investigators over an extended period. OPUS proposals will often be appropriately submitted in mid-to-late career, but will also be appropriate early ... More at http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=13403&WT.mc_id=USNSF_39&WT.mc_ev=click

**Perception, Action & Cognition**

Full Proposal Window: August 1, 2013
This proposal window is for research proposals only. Workshop and conference proposals should not be submitted during this submission window.
Program Guidelines: PD 09-7252

Supports research on perception, action and cognition. Emphasis is on research strongly grounded in theory. Central research topics for consideration by the Perception, Action, and Cognition panel include vision, audition, haptics, attention, memory, reasoning, written and spoken discourse, and motor control. The program encompasses a wide range of theoretical perspectives, such as symbolic computation, connectionism, ecological, nonlinear dynamics, and complex systems, and a variety of ... More at http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5686&WT.mc_id=USNSF_39&WT.mc_ev=click
**Law & Social Sciences (LSS)**

Full Proposal Target Date: August 1, 2013  
Program Guidelines: NSF 12-507

The Law & Social Sciences Program considers proposals that address social scientific studies of law and law-like systems of rules. The program is inherently interdisciplinary and multi-methodological. Successful proposals describe research that advances scientific theory and understanding of the connections between law or legal processes and human behavior. Social scientific studies of law often approach law as dynamic, made in multiple arenas, with the participation of ...  

**Division of Environmental Biology (core programs) (DEB)**

Full Proposal Deadline Date: August 2, 2013  
Full proposals, by invitation only  
Program Guidelines: NSF 13-508

The Division of Environmental Biology (DEB) supports fundamental research on populations, species, communities, and ecosystems. Scientific emphases range across many evolutionary and ecological patterns and processes at all spatial and temporal scales. Areas of research include biodiversity, phylogenetic systematics, molecular evolution, life history evolution, natural selection, ecology, biogeography, ecosystem structure, function and services, conservation biology, global change, ...  

**Biological Anthropology**

Full Proposal Target Date: August 2, 2013  
Senior Research  
Program Guidelines: PD 98-1392

The Biological Anthropology Program supports basic research in areas related to human evolution and contemporary human biological variation. Research areas supported by the program include, but are not limited to, human genetic variation, human adaptation, human osteology and bone biology, human and nonhuman primate paleontology, functional anatomy, and primate socioecology. Grants supported in these
areas are united by an underlying evolutionary framework, and often a consideration of...

**Division of Integrative Organismal Systems**

Full Proposal Deadline Date: August 2, 2013
By Invitation Only
Program Guidelines: NSF 13-506

The Division of Integrative Organismal Systems (IOS) supports research aimed at understanding why organisms are structured the way they are and function as they do. Proposals should focus on organisms as a fundamental unit of biological organization. Principal Investigators (PIs) are encouraged to apply systems approaches that will lead to conceptual and theoretical insights and predictions about emergent organismal properties. Areas of inquiry include, but are not limited to, ...

**Dear Colleague Letter: I/UCRC Innovation Fellows (IIF) Supplemental Funding**

Available Formats:
Document Number: nsf13107

**Dear Colleague Letter: FY 2013 Career-Life Balance (CLB) Supplemental Funding Opportunities in support of Postdoctoral Investigators funded by NSF awards**

Available Formats:
