**Small Business Technology Transfer Program Phase I Solicitation FY-2014 (STTR)** This information has recently been updated, and is now available.

**Small Business Technology Transfer Program Phase I Solicitation FY-2014 (STTR)**

Full Proposal Deadline Date: **June 13, 2013** Proposals submitted outside the window of **May 13, 2013 - June 13, 2013** will be returned without review. Proposer’s time is defined as the time zone associated with the company’s address as registered with NSF at the time of proposal submission. Program Guidelines: NSF 13-547

The Small Business Technology Transfer (STTR) program stimulates technological innovation in the private sector by strengthening the role of small business concerns in meeting Federal research and development needs, increasing the commercial application of federally supported research results, and fostering and encouraging participation by socially and economically disadvantaged and women-owned small businesses. The STTR Program requires researchers at universities and other ... **Workforce Program in the Mathematical Sciences**
You are subscribed to All NSF Upcoming Due Dates for National Science Foundation Update. This information has recently been updated, and is now available.

**Workforce Program in the Mathematical Sciences**

Full Proposal Window: *June 15, 2013*  
Program Guidelines: PD 08-7335

The long-range goal of the DMS Workforce Program is to increase the number of well-prepared U.S. citizens, nationals, and permanent residents who successfully pursue careers in the mathematical sciences and in other NSF-supported disciplines. Among intermediate goals to this end are improvements in recruitment, retention, education, and placement of trainees in the mathematical sciences. The program’s primary interest is in activities centered on education through research ... Research Coordination Networks (RCN)
This information has recently been updated, and is now available.

Research Coordination Networks (RCN)

Full Proposal Deadline Date: June 14, 2013 RCN UBE & UBE incubator
Track Program Guidelines: NSF 13-520

The goal of the RCN program is to advance a field or create new directions in research or education by supporting groups of investigators to communicate and coordinate their research, training and educational activities across disciplinary, organizational, geographic and international boundaries. RCN provides opportunities to foster new collaborations, including international partnerships, and address interdisciplinary topics. Innovative ideas for implementing ...
