

LABORATORY SATELLITE ACCUMULATION AREA

LOCATION: _____

PI: _____

RESPONSIBLE PERSON: _____

CONTACT NUMBER: _____

The satellite accumulation area must be inspected weekly and containers may not exceed 12 months in the accumulation area

Containers must have a waste tag completed including full contents and accumulation start date

Containers must be closed, with the exceptions of adding, removing, or venting waste

Chemical Spills in the SAA:

STOP the source of the spill

CONTAIN the spill

CLEAN up all small spills immediately using absorbent materials or universal spill pads

CONTACT EHS if replacement containers or secondary containment are needed or to report a sizeable spill

Major Spills:

EHS: (814) 865-6391 (M-F 8-5)

University Police: (814) 863-1111

Containers must be in good condition and stored in secondary containment
